

Please do not restrict XM Satellite Radio nor its satellite radio competitors from benefitting its customer by broadcasting its traffic and weather channels. Satellite radio provides variety and quality that are not available with local broadcasts. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
